

*“Talk Is Cheap!  
It Takes Money  
To Find A Cure”*

# 4ULOC Bigger Brighter

The Hornery Family - *“Inspiring others to help make a difference”*

A Central Queensland Family consisting of Percy & Sandra, and sons Derran, Randall, Que and their families have banded together to raise awareness and much needed funds to help find a cure for Cancer.

It has been prompted by the loss of their son & brother Lachlan James who passed away on the 1st of October 2008 aged 36 years to this dreadful disease. Lachlan left behind wife Sonia and their 5 children.

While Lachlan was ill he stated that if he beat this disease he would do whatever he could to help and

try and make a difference to others suffering the same pain. Sadly he never made it, so his family built this special Water Truck, painted it Pink, and called it “4 U LOC” Cancer Unit.

To raise Awareness and much needed Funds for Research and Equipment necessary to make a Difference to Cancer Sufferers. This was accentuated to us after spending several weeks in the Cancer Unit & Intensive Care at the Royal Brisbanes Womens Hospital.

## Objectives

On a everyday basis the “4 U LOC” Unit will work in the Mining/Development/Construction Industries, as do all our trucks, however the Hornery Family will donate \$20.00 for every hour the “4 U LOC” Unit works. The Hornery Family will donate these funds to a Cancer Organisation on behalf of the company who hires the “4 U LOC” Unit. *“Talk Is Cheap – It Takes Money To Find A Cure”*

The “4 U LOC” Unit will be made available FREE of charge to attend and fundraising committee event. The committee which requests the presence of the “4 U LOC” Unit will be required to engage a sponsor to donate to this committee’s cause for the duration of their event.

*“Every Drop Of Hope Will Count”*
