

# Hornery water and transport

**Hornery Water and Transport commenced operations in 2004. Since our inception, we have invested heavily in capacity on a fleet of multipurpose Water Trucks and related Heavy Machinery to service a range of client's mining, industrial, commercial and residential requirements.**

We have developed core competencies in key deliverable services in water cartage and portable water businesses and developed a robust, trustworthy reputation for reliability, timely and quality execution of our services.

Hornery Water and Transport service the key markets of the greater Central Queensland region with our Head Office located in Moranbah.

Our strength are underpinned by an expansive fleet of Trucks that have the capability to service a multitude of different sites, callouts and functions.

We have our own comprehensive workshop with the capacity to maintain, service and repair our entire fleet of Trucks and Heavy Machinery.

Our committed Team are able to offer solid experiences and professional service both from the front end of the Business as well as Administrative and supporting functions.

**Hornery Water and Transport are committed to:**

1. Providing superior customer service that consistently delivers quality services on time, at call 24/7 reliably and efficiently, consistently everytime
2. Corporate governance including a Code of Ethics and Complaints mechanism that are in place across the organisation
3. A safe and friendly working environment for all employees, customers and visitors

**Services that we provide:**

1. Transportation of large movements of water (Transporting 107meg of water by road, 120km round trip in 9 weeks total of 1.7 meg per day)
2. Supply of water for the exploration and development of new gas projects, including flushing of wells
3. 18,000 Ltr Twin Steer, Tri Axle Vacuum Truck available to dispose of any water/ liquid waste to environmental and workplace health and safety standards
4. Water Pump Hire Service through HZH Pump Hire which is a division of Hornery Water and Transport

**Our Vision:**

To be the premier and first choice option of Water Truck delivery to our clients, based on guaranteeing 100% superior customer service, safety, reliability and quality.

**Our Team:**

As we review the past few years of operation, experiencing both the difficult and economically prosperous times, our one fundamental strategy remains unchanged - that our commitment to our customers remain unequivocally our number one priority.

Our Team are committed to provide services around the clock, 24

hours, seven days a week, which is appreciated to enable our clients to continue with their operating activities unabated, maximising their productivity levels and costs savings associated with uninterrupted operations.

At the same time, we have built up our capabilities and can offer a diversified range of Water Trucks and associated heavy equipment that can service varying terrains, mining sites, unique projects etc. We are tailored to service the mining giants, resources Companies to lower scale operations as well as domestic private enterprises and developers.

Our reputation amongst the industry are well known. Reliable, honest, act with integrity, commitment to detail and timely delivery are key attributes that has been built up over the years of service to enable us to strategically partner with many of our clients today.

Our commitment extends to our people. We acknowledge the contributions and dedication made by our Team and can offer workplace diversity as well as a safe and happy work environment. Due to the inherent safety risks posed by the nature of the industry, we take all precautionary steps to minimise risks and hazards. I have a strong view and we have adopted a philosophy that there are no accidents, but incidents which can be prevented. All our Drivers have underwent the necessary safety training, complied with the requirements of the various licensing regimes setup with the regulatory bodies to enable us to both operate on the road, but equally important, meeting the strict internal policies and regulations promulgated by our clients onsite.

Our internal values of passion in our work, reputation, excellence in the delivery of reliable, timely services and adaptability to provide

*"We welcome your enquiries, happy to offer technical advice, and customer feedback"*

innovative solutions is our commitment and service quality to our clients. On a strategic outlook, we are placing strong emphasis to implement further quality assurance and value adding services as we grow our client base. We look forward to working with you and develop a rewarding strategic partnership.

**Operations Manager and Team:**

Operating at 24hours a day-7days a week-365 days a year and we guarantee water at the job site 100% of the time.

Business successfully comes down to 2 main things: Reliable People and Reliable Equipment.

The Hornery Trading Groups employees understand the importance of doing the job right the first time every time safely.

We only employ staff that wants to be here not who have to be here. They all need a minimum of 2 years experience, no prior convictions and a clean driving record.

As we are on call at a moment's notice the Trucks need to be in top condition. This happens only through the way our staff look after the equipment, as well as working closely with the workshop staff. We also have a fully qualified Work Place Health and Safety Officer whose only job is to keep our staff and their work place safe and free of incidents, as well as keeping up with changes in regulations.

**Workshop Manager and Team:**

The Hornery Workshop based in Moranbah services and maintains our every growing fleet of Trucks, Trailers, vehicles and other Implements.

We employ up to 5 trades people, Diesel Fitters, Auto electricians, and

Boiler makers. We also have a 24 hour call out mechanic for any in field repairs that may happen, ensuring our trucks can keep working, to get your job done and guarantee water 100% of the time.

We are responsible for servicing and maintaining a wide range of heavy vehicles and our other unique implements. From 6 hp Honda water pumps to 620hp Kenworth Semi Trucks no job is to big or small.

With 20 trucks and 10 trailers our fleet holds a many different challenges. No two trucks are the same. Our trucks consist of mainly International and Kenworth's for their reliability and ease of maintenance.

We also stock a wide range of parts. Although Moranbah is only 2 hours from the coast, part procurement can at times be hard. Luckily we have a great working relationship with Mackay Truck Parts and can often secure the parts we need on the same day if not over night.

With a fleet this size even seemingly small things can be a full time Job. A great example is tyres with 20 trucks and 10 trailers that equates to approximately 300 tyres on our trucks at one time. Consequently we buy tyres at a container at a time as a safe truck starts with its tyres. All tyres are cleanskins and worn tyres changed early.

We pride ourselves in the work that we do and always try and complete jobs in a Safe yet efficient and timely manner.
